DETAILED ACTION

Election/Restrictions

Acknowledgment is made of the receipt and entry of the amendments filed on July 31, 2003 and Applicant's cancellation of Claims 29-30. However, the reply filed on July 31, 2003 is not fully responsive to the prior Office action because of the following omission(s) or matter(s): While Applicant has provisionally elected with traverse, the invention as claimed in Group I (*i.e.*, Claims 1-15, drawn to a method of making a composition), Applicant has not elected an invention drawn to a product and an invention drawn to a use of the said product. As the amendment to the claims provide additional inventions, a restriction requirement is deemed necessary, as set forth below:

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-15, drawn to a first method of making a product comprising recited steps a) - c).

Group II, claim 16, drawn to a first product, namely, a liquid phase obtained using the method of claim 15.

Art Unit: 1654

Group III, claim 17, drawn to a second product, namely a solid phase obtained using the method of claim 15.

Group IV, claims 18-22 and 26, drawn to third product obtained using the method as claimed in any one of the preceding claims

Group V, claim 23, drawn to first method of using a product for the treatment of tissue regeneration disorders of the skin and/or superficial body growths.

Group VI, claim 24, drawn to a second method of using a product for the treatment of disorders of the skin and/or superficial body growths related to aging.

Group VII, claim 25, drawn to a third method of using a product for the treatment of inflammatory skin manifestations.

Group VIII, claim 27, drawn to fourth method of using a product for cosmetic treatment for tissue regeneration of the skin and/or superficial body growths.

Group IX, claim 28, drawn to fifth method of using a product for the cosmetic treatment of modifications related to aging of the skin and/or superficial body growths.

1. The inventions listed as Groups I-IX do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Applicant is reminded that under PCT Rule, Applicant is allowed one method of making a product, one method of using a product, and one product for prosecution on the merits. As drafted, the pending claims fail to comply with PCT

Art Unit: 1654

Rules. Applicant is required to elect a single invention for prosecution on the merits, i.e., one method of making a product, one method of using a product, and one product or any other words “(3) a product, a process specially adapted for the manufacture of the said product, and a use of the said product.”

2. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michele Flood whose telephone number is (703) 308-9432.
